

Health First Europe Exhibition on the future of Health in the European Parliament week 5-9 January 2009 at the “Espace Bar”

Dear Members of the European Parliament,

Under the patronage of MEP Elizabeth Lynne, Health First Europe (HFE) will hold an exhibition at the premises of the European Parliament during the week of 5-9 January 2009, with the aim of raising awareness on the quality and safety of patients and health care workers in Europe.

As you may know, in recent months, healthcare quality and safety have been a priority on the European agenda, and we hope that these recent initiatives are just the beginning of EU action in the area of health. For this reason, we invite you to visit our exhibition at the “Espace Bar” (3rd floor, ASP) and to take a few minutes examining the available information.

HFE is a non-profit, non-commercial alliance of patients, healthcare workers, academics and healthcare experts and the medical technology industry. We aim to ensure that equitable access to modern, innovative and reliable medical technology and healthcare is regarded as a vital investment to secure the safety and quality of healthcare in Europe.
